

CAREER AND TECHNICAL EDUCATION

Career and Technical Education (CTE) works collaboratively and responsively with our community to meet the needs of our diverse student population in preparing them for life, work, and careers. We provide quality resources and support to educators and students that enhance classroom learning. Additionally, we support campus and community activities that enhance academic achievement, technical skills, and productive citizenship to build stronger communities. To find more information on how this area can assist you, please visit <https://www.cgc.edu/academics/specialty-programs> (<https://www.cgc.edu/academics/specialty-programs/>).
