INFORMATION TECHNOLOGY (IT)

Information Technology is located on the second floor of the Library at the Pecos Campus and in Bluford Hall at the Williams Campus. IT plans, designs, and integrates various college technologies in support of Student Success. IT performs ongoing operational support for computing, network, application, and media services. This includes technical support in the following areas:

- Enterprise Systems and Infrastructure
- Client/Network Support
  Computer Hardware Repair
- Desktop Applications
- IP Telephony
- Business Process Automation
- Web-based Applications
- Media Audio/Visual Systems
- Project Management

Information Technology provides technical support at the Pecos Campus, Williams Campus, Sun Lakes Center, and Communiversity at Queen Creek. CGCC's network design provides connectivity to a variety of environments including internet and wireless, in support of a multitude of computing technologies. A dedicated and professional team delivers technical services, implementation, and support for instructional and administrative systems.

For technical assistance, please call the Information Technology Helpdesk at 480-732-7025 or visit www.cgc.edu/IT (http://www.cgc.edu/IT/).
